

Three Functions in one Machine !

SMICHAN is the continuous bamboo chip carbonization device

A - O Type, A - A, B Type
C2 Continuous
3 Models of D Type

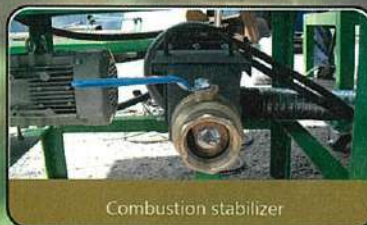

Smoke is unnoticeable .Smoke doesn't release at times smell is inconsiderable.
Depending on the size of rice husks not air is released. hot water can be produced too

Hot air Generator & Hot Water Supply Device

Screw Conveyor

Combustion stabilizer

Rice Husk Charcoal Cooling Faucet

Before Improvement

After Improvement

Increased Combusting Efficiency
Improved Blades Make it Easier to
Combust & make Charcoal Quickly.

Check inside of the screw shaft, With the rise of the temperature the shaft breaks
Lot of smoke is emitted by bamboo chips that contain a lot of water.
Drums & pail cans that could be covered are required.
Installation is just placing the device on a horizontal ground.
Arrange a 200V plug in socket for electricity.

[Options]

- Distributor Screw Selling Price 470,000 x 4m x 139 Can Store up to 3 Flexible Container Bags
- Hot air Generator (For Heating)
- Water Heater (Hot Water)Estimates Differ, With Different Dimensions
- ◆ Consumption tax adds Separately
- ◆ Transportation Cost is Based on Cash on Delivery. If this Service is Preferred Please Contact
